

The screenshot displays the Informatica PowerCenter Workflow Monitor interface. The top status bar indicates 'Time Remaining: 20h 4mn' and the user 'ap-south1-vdi03'. The main window title is 'Informatica PowerCenter Workflow Monitor'. The interface includes a menu bar (Repository, Edit, View, Tools, Task, Filters, Help) and a toolbar with various icons. A tree view on the left shows the repository structure: INT_RepoAcademy > Hands_on > handson > Informatica > wf_patient_data. The main pane shows a table of workflow runs:

Workflow Run	Start Time	Completion Time	Status
wf_patient_data	4/6/2022 11:24:06 AM	4/6/2022 11:24:09 AM	Succeeded
ss_patient_data	4/6/2022 11:24:06 AM	4/6/2022 11:24:09 AM	Succeeded
wf_patient_data table			

Below the table, the 'Task View' tab is active, showing a log of tasks connected to the repository 'INT_RepoAcademy'. The log includes timestamps and task names such as 'Task Update: wf_patient_data_table (Running)', 'Task Update: wf_patient_data_table (Succeeded)', and 'Task Update: wf_patient_data (Preparing to run)'. The status of these tasks is 'In progress' or 'Succeeded'. The bottom of the screen shows the Windows taskbar with the time '11:24 AM' and date '4/6/2022'.
